

Housing quality: Breakdown by ethnicity

Downloaded from <https://www.canterburywellbeing.org.nz/our-wellbeing/housing/housing-quality/#ink-breakdown-by-ethnicity> on 25/10/2020 7:06 AM

The figure shows that in June 2019, over three-quarters of European and Māori respondents indicated that they were satisfied or very satisfied with the physical quality of the home in which they lived. Approximately two-thirds (65.4 percent) of Pacific/Asian/Indian respondents indicated that they were satisfied or very satisfied with the physical quality of the home in which they lived (statistically significantly lower than European respondents). The pattern seen in 2019 generally reflects that seen at the 2017 and 2018 time-points (along with a general increase in satisfaction, 2017–2019).

Data Sources for Housing quality

Source: Canterbury District Health Board.

Survey/data set: Canterbury Wellbeing Survey to 2019. Access publicly available data from the Community and Public Health (Canterbury DHB) website www.cph.co.nz/your-health/wellbeing-survey/

Source data frequency: Annually.

Metadata for the Housing quality indicator is available at <https://www.canterburywellbeing.org.nz/home/index-data>
