Housing quality: Breakdown by income

Downloaded from https://www.canterburywellbeing.org.nz/our-wellbeing/housing/housing-quality/#link-breakdown-by-income on 29/03/2024 6:56 AM

The figure shows an overall pattern of increased satisfaction with the quality of the home with increasing household income. The proportion of respondents in the less than $30,000 income bracket satisfied or very satisfied with housing quality was statistically significantly lower than that for respondents from the two higher income groups in 2022.

Data Sources for Housing quality

Source: Te Whatu Ora Waitaha Canterbury - formerly the Canterbury District Health Board.
Survey/data set: Canterbury Wellbeing Survey to 2022. Access publicly available data from the Te Mana Ora | Community and Public Health website www.cph.co.nz/your-health/wellbeing-survey/
Source data frequency: Annually.

Metadata for the Housing quality indicator is available at https://www.canterburywellbeing.org.nz/index-data
