

## Low household income: Breakdown by ethnicity

Downloaded from <https://www.canterburywellbeing.org.nz/our-wellbeing/income/low-household-income/#link-breakdown-by-ethnicity> on 29/01/2023 6:02 PM

The figure shows substantial variability in the 20th percentile equivalised gross weekly household income in greater Christchurch, for Māori compared with non-Māori - some of the variability for Māori being due to smaller numbers of Māori respondents. However, the overall trend appears to be increasing 20th percentile equivalised gross weekly household income levels for greater Christchurch, for Māori and non-Māori. The rate of increase appears to be greater for non-Māori than for Māori.

### Data Sources for Low household income

**Source:** Statistics New Zealand.

**Survey/data set:** New Zealand Income Survey (NZIS); run annually as a supplement to the Household Labour Force Survey during the June quarter (1 April to 30 June). Custom data request for greater Christchurch region.

**Source data frequency:** Annually.

Metadata for the Low household income indicator is available at <https://www.canterburywellbeing.org.nz/index-data>
